

Managing dangerous goods

Retail and Distribution Group networking event

16 November 2010

Coventry Transport Museum, Millennium Place,
Hales Street, Coventry, CV1 1JD

09.45–16.15

Dangerous goods affect the day-to-day work of many of us, but are we storing them correctly and do we have the correct plans in place in case of an emergency? This seminar will answer these and other questions, as well as get you up to speed with the new ADR Regulations – which come into effect in January 2011 – and their potential impact on your business.

The day will include a session on the storage of dangerous goods, plus a legal view, planning permission matters and risk assessment issues from the HSE. We'll also have a presentation on what happens in the case of a stored dangerous goods emergency. The afternoon will focus on ADR legislation changes, and will include an interactive workshop.

This event offers:

- straightforward advice and guidance
- learning-orientated presentations and workshop
- legislation updates
- networking opportunities.

Who should attend?

This event is ideal for those involved in the storage and distribution of dangerous goods, health and safety practitioners, consultants and safety advisors, and operational managers involved in warehousing and transport (particularly those affected by ADR).
