

YOU ARE INVITED

TO A UNIQUE EVENT.

Energy Efficiency and Safety in the Warehouse

We are delighted to invite you to a special event on 18th and 19th of October. Hosted at LRIC in north Manchester this event has the twin themes of **ENERGY EFFICIENCY** and **SAFETY** in the warehouse.

Key note speakers will give delegates valuable insights into new technology and working practises. Open from 10.00 am to 4.00pm, light refreshments will be available all day with buffet lunch served around midday.

Alongside the existing equipment and services we will be showcasing Hyster forklift trucks from Barloworld.

Barloworld Handling *The next generation of energy efficient forklift trucks*

Lean and Green

18th / 19th October 2011 LRIC, Middleton, Manchester

Please visit our web site: www.wtglive.co.uk for full programme timings and to register.

REGISTER

Keynote Speakers at October Event:

Lance Pearson will demonstrate how Utility Watch saves companies in the warehousing industry thousands of pounds per month on energy bills.

Ian Hancock, a vastly experienced Health and Safety expert will share his experiences of working in some of the country's leading logistics and distribution companies. He will show how reducing the likelihood of accidents in the supply chain is both morally and economically important.

What is the Warehouse Technology Group?

WTG is a unique collaboration of 20 companies involved in the manufacture and supply of specialist equipment to the warehousing and logistics industry.

WTG has created a fully working warehouse known as the Logistics Research and Innovation Centre (LRIC). The centre is in North Manchester and comprises a 12,000 square feet unit fitted out by the partners.
