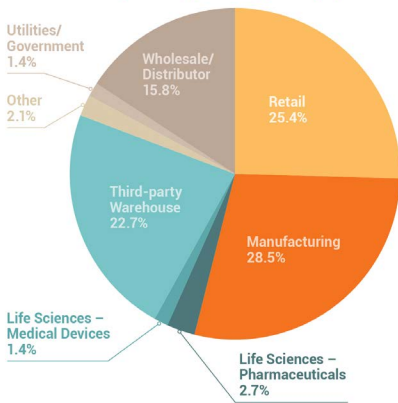

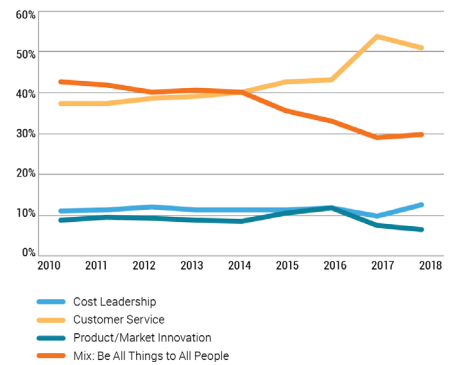

Figure 3. Respondents by Business and Operational Strategy

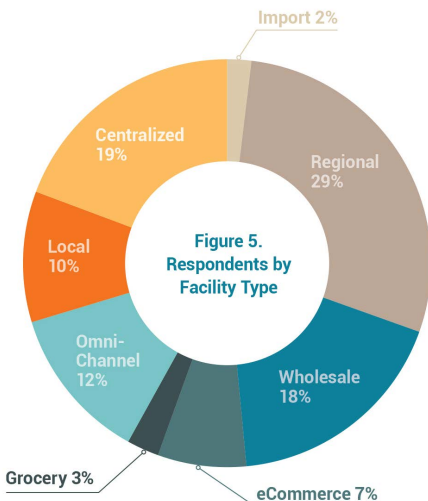

# Benchmarking your business

- Measure the performance of your operation against global standards
- Discover where you can exploit real competitive edge
- Identify areas for improvement to your business
- Enhance efficiency, productivity and profitability
- Identify key metrics to take part in next year's benchmarking survey

## Feedback from UKWA respondents

- 45% of UKWA members that took the survey felt that a shortage of labour would have the greatest negative impact on their operation in the coming year.
- UKWA members' biggest concern with Brexit is that it will bring a "downturn in the UK economy affecting consumer spending"
- 55% of UKWA respondents reported that an improvement in picking efficiency would give the greatest performance benefit to their operations \*

\*The full DC Measures report provides benchmarked standards for both picking speed and accuracy that UKWA members can use to improve this vital area of the operation.

- **Exclusive discount for UKWA members!**  
Only £175 +VAT
- **Full price for non-members**  
£450 +VAT
